

DESIGN AND CONSTRUCT

April 2012

Our expert design team will work with you to produce your structure - from initial design through to installation GRDC will make your open space projects a reality!

GR Design and Construct have had a busy first quarter for 2012. Delivering first class public infrastructure for signature projects that demonstrate our excellence in design and construction that has become synonymous with our reputation as Victoria's premier open space specialists. Whether you require a full design, engineering, fabrication and installation service or to build from your own specifications, GRDC have the capability and the capacity to accommodate any project regardless of size or complexity.

GRDC collaborated with TRACT Consultants and Australand to develop this Bi Canopy Shelter & Low-Lying Boardwalk

The 122m x 1.8m fork shaped Boardwalk consisted of:

- Cyprus pine posts / stumps & spotted gum decking
- MP12 bearers & joists
- HD Gal steel brackets & fixings

The Bi-canopy shelter project included:

- Design & engineering
- HDG painted steel posts and roof frame with galvanized fixings
- F14 hardwood battens
- Hi-Mac to roof canopy

DESIGN AND CONSTRUCT

April 2012

Your one stop shop for complete project management!!

⇒ Design

⇒ Install

⇒ Engineer

⇒ Project Handover

⇒ Fabricate

NEWSFLASH!!! Steel Fabrication moves in-house!!!

Controlling steel costs in any project is always a challenge - particularly in a volatile international commodity market. By having a full in-house steel fabrication facility, GRDC are now a one stop shop offering you greater certainty in cost savings and timeframe efficiency.

MAV Certified Supplier

GR Design and Construct are now a Certified Supplier of public open space infrastructure to MAV Procurement. This means that the 38 participating councils across Victoria do not have to publicly tender on open space structures or seek three quotes under the procurement contract arrangement.

Call us directly for a no obligation free quote or advice on your infrastructure needs.

Project Management

Our project management team have the responsibility of overseeing the installation of our products where ever they are built. As professional builders and project managers, they have the experience and expertise that is required to ensure that your product is delivered exactly to your specification and satisfaction.

Sponsorships

GRDC is a registered member of the Master Builders Association as well as actively sponsoring the Australian Institute of Landscape Architects, LG Pro and the Cemeteries and Crematoria Association of Victoria. We believe in supporting the aims of our client base through their professional peak Associations.
