

DESIGN AND CONSTRUCT

May 2012

Our expert design team will work with you to produce your structure - from initial design through to installation GRDC will make your open space projects a reality!

52m Footbridge - Renaissance Rise, Mernda

GRDC worked closely with Land Design Partnership & Angus Ramsay from RCL Group to design & construct this 3 span 52m long x 2.5m clear width pedestrian bridge. This footbridge consists of:

- HDG painted steel cross heads, beams, posts & top rail
- Mod wood decking
- Hardwood & pine infill panels
- All prefab and onsite labour
- All correspondence with Melbourne Water
- Crane placement
- Insitu concrete piers
- All OH&S
- Soil report

10m x 6m Skillion Shelter - Somerfield Estate Stage 1

Bayport came to GRDC for the drafting, fabrication & installation of this custom shelter. GR worked alongside Bayport Group who were the principal contractor on-site. This structure consists of:

- HDG steel posts & roof frames
- Powdercoat to all steel members
- Chain & gutter
- Colorbond roofing
- Full workshop drawings
- All onsite labour & tools
- Crane placement

DESIGN AND CONSTRUCT

May 2012

Your one stop shop for complete project management!!

⇒ Design

⇒ Install

⇒ Engineer

⇒ Fabricate

⇒ Project Handover

1D4C Restroom - Atkinson Park, Kerang

GRDC won the contract to build a restroom facility for Gannawarra Shire at one of their high profile parks. The restroom also had to provide some shelter for the locals and tourists alike. The materials used were:

- Stainless steel toiletware
- Treated pine wall framing
- HDG steel posts & roof trusses
- Colorbond custom orb roofing
- Delivery to site
- Sewer & water rough-in to edge of slab

1D Restroom Upper Yarra Community House

Another example of GRDC's flexibility with community restroom design! This restroom consists of:

- HDG steel posts
- Sewer & water rough-in to edge of slab
- Precut, pre drilled Zinalume roofing
- Zinalume internal & external cladding
- Treated pine wall framing
- Factory stained pine roof framing
- Anti-vandal galvanized fixings & brackets
- All architectural hardware
- Stainless steel toiletware (pans, cisterns, basin & tap)

Four Oval Seats Sandhurst Estate- Super Gardens

GRDC can work with clients to come up with a range of custom designs for street furniture.

The four oval seats consists of:

- Shop drawings
- Prefab & onsite labour
- Hardwood slats
- Protective oil finish
- Delivery to site
