

Call GRDC for a no obligation discussion on your open space needs.

- Shelters * Restrooms * Boardwalks/Access Structures * Footbridges * Street Furniture *
- Standard & Custom Structures

This very successful project at Findon Creek, Eucalypt Waterway between Stockland Group, MDG and GR Design and Construct demonstrates the ability of three companies to work closely together to come up with a brilliant looking project "on time and on budget".

Andrew Moyle and Amy Dakis, from MDG, came to GR with some rough sketches and ideas for a custom shelter, pedestrian bridge and numerous associated works. These structures were to be delivered in the Open Space area at Eucalypt Waterway, Findon Creek for Stockland Group.

After tick tacking through the three project elements, making design changes where necessary, GR went about finalising fabrication and construction drawings together with engineering certification. It was at this stage we were able to price the job in its entirety knowing we had all the relevant information up front. This gave the client comfort knowing there would be no surprises down the track as all the risk had been taken out.

The three elements consisted of the following

1. I-Beam Pedestrian Bridge

- 34m x 2.5m
- Bored Piers
- HDG I-Beams
- RHS Bearers
- MGP Joists
- Hardwood Deck
- Steel post and timber cap-rail with stainless steel horizontal wires
- Installation and crane placement
- Geotech & Water Authority Permit

2. Shelter -14m x 5m Bi-Fold Roof

- 14m x 5m Bi-Fold Roof
- SHS Posts - Painted
- Colourbond custom orb roof sheeting
- Timber trusses to underside
- All related flashings
- Stained Ply soffit lining
- Ironbark timber screen
- Decorative fascia
- HDG hardware
- Full installation, including RC foundations

3. Associated Works

- Bluestone paving beneath shelter & stairs
- Off form reinforced concrete seating walls
- Common Footings to tie in all elements to common construction base
- Rock filled rigid gabion cages, with precast concrete seat lids
- Hardwood timber decking - 220m2
- Building Permit

This project shows the extent to which GR can deliver quality projects of all sizes working in with the Developer, LA and Landscape Contractor onsite.

GR is a Melbourne based design and construct company, we specialise in Open Space products. We use local trades where possible both in Metro Melbourne and Rural Victoria. No project is too small. Talk to GR about public amenities, custom and standard shelters, bridges, boardwalks and furniture.
