GR DESIGN & CONSTRUCT

Issue Thirteen — June 2009

LATEST CUSTOM STRUCTURES BY GRDC

This custom shelter was recently constructed by GRDC at the new Settlers Run Estate in Cranbourne. The shelter features red gum hardwood double posts and seat slats, rammed earth pillars and a custom picnic setting. The shelter was designed to complement the club house and the Greg Norman-designed championship golf course nearby.

Designed and constructed by GRDC, this custom arbour is located at the Boardwalk Estate, Point Cook. The arbour features hot dipped galvanised steel columns with hardwood rafters and 8mm stainless steel wiring and creates a feature structure ideal for this new development.

GRDC recently constructed this custom pergola at the Moorookyle Estate in Tarneit. Comprising 300x80 laminated beams and 290x45 purlins the pergola is an impressive structure located outside the local club house.

The previously featured Balcombe Estuary Boardwalk has now been completed and is open to local residents and visitors. Over 300 metres of boardwalk was constructed in dense and sensitive bushland replacing the old walkway. Featuring viewing platforms and passing bays the boardwalk is a welcome upgrade for walkers in the area
