Sumsion Gardens, Wodonga

GR Design & Construct are proud to be a part of the high profile redevelopment of Sumsion Gardens where this restroom and three shelters were recently installed.

This 3D2C amenities block is ideal for parks and recreation reserves and features LOSP treated pine wall framing, shadow clad internal and external cladding, colourbond roofing, hardwood timber decorative screens, stainless steel hand basins and taps, china pans and concealed cisterns.

Also designed specifically for the redevelopment were two 7x5.5m pavilion shelters and a 4x4m pavilion shelter shown below. These simple yet effective shelters have timber clad steel posts creating the look of timber with the structural strength of steel, colourbond roofing and feature hardwood timber balustrading.

Hillview Reserve, Moorookyle Estate

Demonstrating GRDC's diverse product range, these platform seats and balustrading were recently installed at the new Moorookyle State in Tarneit. Featuring hardwood posts and 8mm Ronstan stainless steel wire the balustrading perfectly complements the hardwood platform seats creating a space where residents choose to relax.

1D Restroom - Dunns Road, Mt Martha

Designed and constructed by GRDC this 1D restroom was recently installed in Mt Martha. The custom restroom consists of:

- Internal & external 9mm compressed fibre cement sheet
- Steel posts and roof framing
- Steel roof cladding, flashing, spouting & downpipes
- Colourbond roofing
- Steel clad solid core doors
- Stainless steel toiletware
- All architectural hardware
- Wall tiles over internal CFC sheet, non slip ceramic floor tile system
- Internal sensor lights
- Magnetic door locks with 24 hour timber
- Connection to sewer
