

Our expert design team will work with you to produce your structure - from initial design through to installation GRDC will make your open space projects a reality!

July 2012

GRDC now branching out in Tasmania - LGAT Conference

GR Design & Construct are now proud sponsors of the Local Government Association of Tasmania. Our trade stall attracted a lot of attention from Tasmanian councils who are interested in our range of products. GRDC are building a strong presence across the southern states of Australia through providing first class open space infrastructure.

Two Curved Footbridges - Chancellor Park - Streetscapes

These two footbridges (1x7.2m & 1x8.7m) consist of:

- HDG steel brackets and fixings
- HDG 180 UB 22 steel I-beams
- Reinforced concrete abutments
- 190x45 F14 dressed HWD decking & kickers
- Oil/stain finish to timber
- Curved stanchions & stainless steel wiring to handrail

Custom Shelter - Buttercross - MDG Landscape Architects

GRDC worked closely with MDG to produce this amazing custom shelter from concept all the way through to completion.

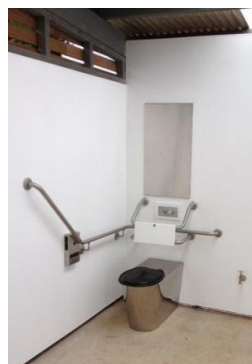

Another excellent outcome!!!

- HDG steel posts beams & rafters
- Hardwood timber shade battens & perkins - F27KD
- Stained plywood to ceiling
- Rock gabion walls/seats with rigid gal mesh
- Concrete plinth/seating to gabion
- Onsite labour and tools
- All OH&S allowances
- Building permit

Both 1D restrooms consist of:

- Timber clad, HDG steel verandah posts
- Pre cut, pre drilled colourbond roofing iron with polycarbonate
- LOSP treated, factory stained pine roof framing
- LOSP treated wall framing
- Internal cladding - Painted plaster board
- External cladding - Waterproof ply 12mm clad in 40x40 spotted gum battens
- Hardwood timber decorative screens
- Stainless steel toilet ware
- Installed atop septic tanks

Two 1D Restrooms - Torquay Golf Course - RACV
